

AdvancedTCA Switch Blade

Providing a Cohesive Approach to Embedded Solutions

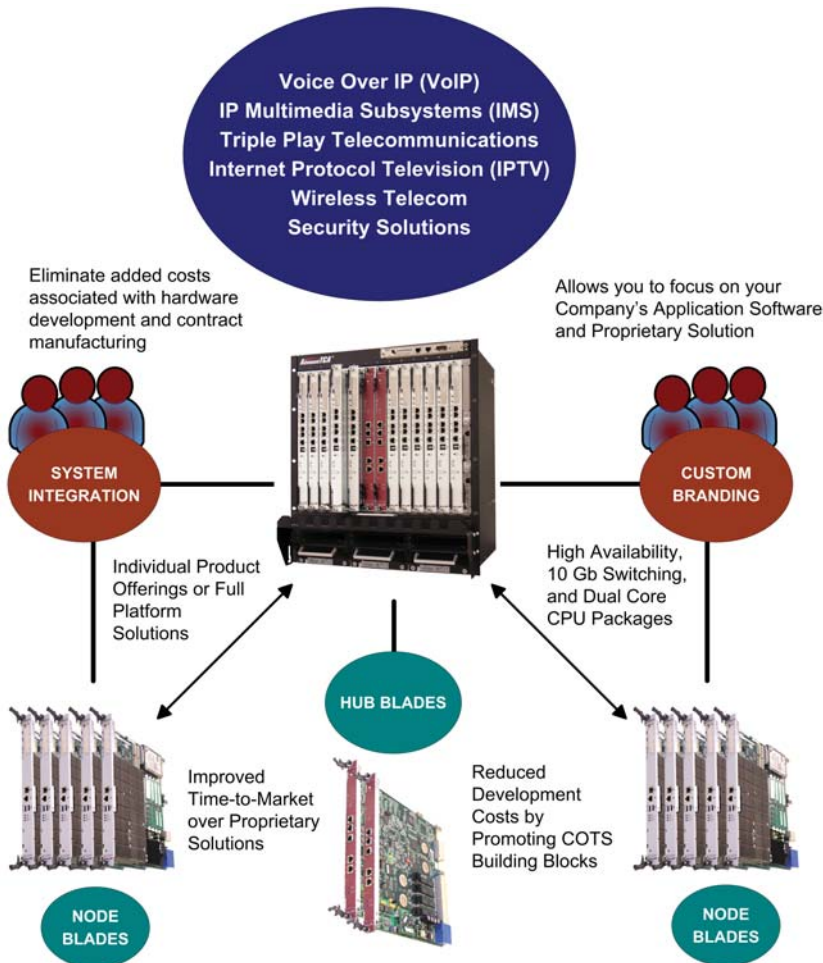

The ATS0020 brings integration to a new level with a low cost base only switch. Switching resources are wire speed non-blocking on both Base and Fabric portion of the ATCA backplane.

About DTI

Through a cohesive approach to embedded computing, Diversified Technology works hand-in-hand with your company to ensure that you are getting the best performance, the highest reliability, quickest time to market and the most efficient use of hardware for your embedded application.

AdvancedTCA Base Switch Blade

- 24 Port Ethernet Base Fabric
- 24 Port Ethernet Expansion Fabric
- L2/L3 Switching on Base and Fabric
- Standardized STP, RSTP, MSTP, and VRRP Support
- Single Management Point for Base
- High Availability
