

CompactPCI®

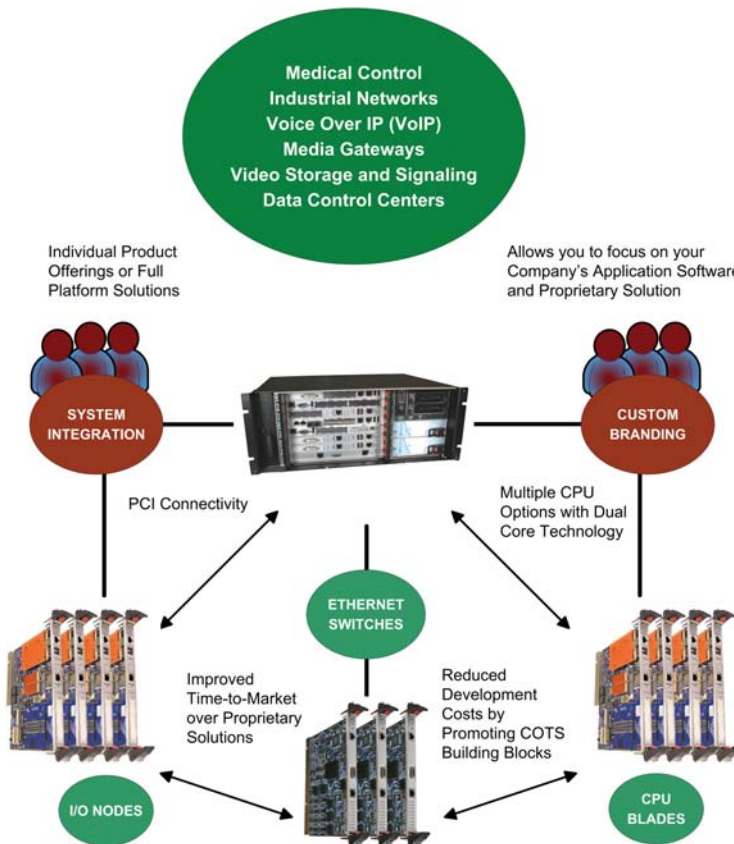

CompactPCI Hub Board

Providing a Cohesive Approach to Embedded Solutions

The CSB4624 from Diversified Technology, Inc. is a PICMG 2.16 compliant CompactPCI managed Ethernet switch. This 6U board has full IPv6 support, twenty-four 1GbE link ports and three 10GbE connections. Designed for reliable and robust operation under the broadest range of conditions, the CSB4624 switch is an ideal partner for DTI's line of CompactPCI CPU boards based on Intel® Processing Technology.

About DTI

Through a cohesive approach to embedded computing, Diversified Technology works hand-in-hand with your company to ensure that you are getting the best performance, the highest reliability, quickest time to market and the most efficient use of hardware for your embedded application.

For more information, please download the Product Data Sheet or contact DTI Sales: sales@dtims.com / 1.800.443.2667

PICMG 2.16 Compliant CompactPCI Switch

- Full IPv6 support
- 10GbE and 1GbE uplinks
- Wire-speed performance
- Layer 2 switching
- Layer 3 routing
- L2 and L3 Multicast support
- (24) 1GbE and (3) 10GbE ports
- Fully managed solution with SNMP, serial, web interface, telnet, and SSH
- Full 20 slot chassis supported
- Various uplink options (front panel and RTM)
- Dual image firmware for disaster recovery
