

CompactPCI®

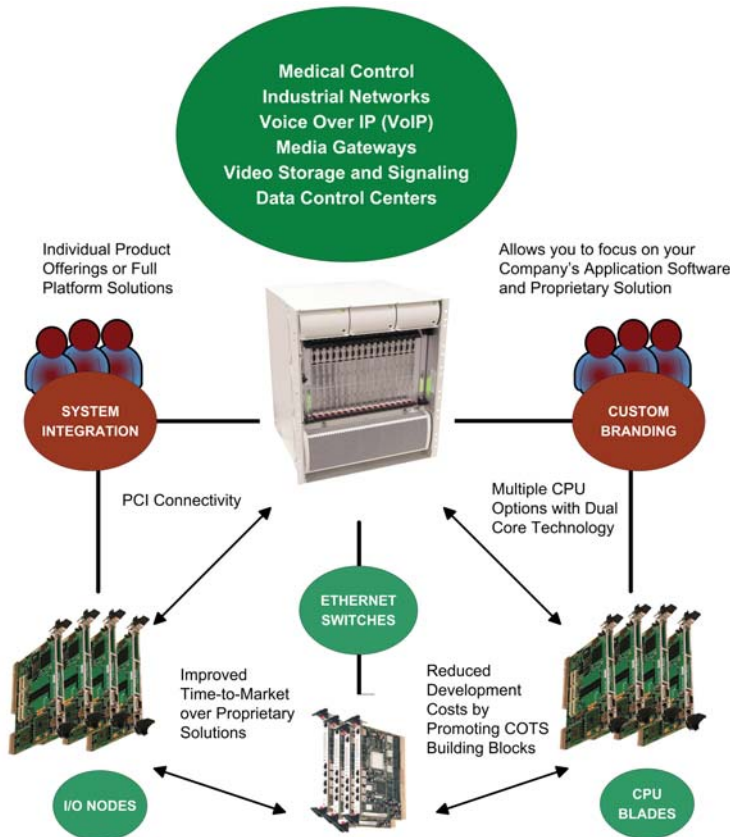

Ruggedized CompactPCI Platform

Providing a Cohesive Approach to Embedded Solutions

The PlexSys-RP is a self-contained, rugged CompactPCI portable computer. The chassis is comprised of a formed aluminum sheet metal casing with a tan anodized finish. Two handles are provided on the top of the chassis for easy transport making the PlexSys-RP a complete portable workstation.

About DTI

Through a cohesive approach to embedded computing, Diversified Technology works hand-in-hand with your company to ensure that you are getting the best performance, the highest reliability, quickest time to market and the most efficient use of hardware for your embedded application.
