

Embedded Rackmount System

Providing a Cohesive Approach to Embedded Solutions

The TrexSys-1 from Diversified Technology, Inc. is a low profile 1U system, designed for use with DTI's high performance PCI single board computers and high I/O bandwidth PCI bus add-in cards. The chassis gives exceptional capacity and expandability in a 1U, compact package ideal for applied computing applications.

About DTI

Through a cohesive approach to embedded computing, Diversified Technology works hand-in-hand with your company to ensure that you are getting the best performance, the highest reliability, quickest time to market and the most efficient use of hardware for your embedded application.

Compact Platform

Ideal for Applied Computing Applications

LBC9216 CPU Board
2.0 GHz Intel® Celeron® M with heatsink

PBP-03P2X Backplane
• 2 PCI Slots (32bits/33MHz) up to 9"
• 1 CPU Slot

Aluminum chassis construction (Black)

Single 250W Power Supply

Physical Dimensions:
1.75"H x 19"W x 17" D

Parts and Labor covered for 2 Years
